The Bayonne Board of Education is proud of the achievements of our faculty and students and often publicizes the many successful programs, projects and activities that highlight the wonderful learning taking place in our buildings. There are many occasions in our schools when photographs are taken of faculty and students engaged in education activities. Frequently, such photographs include individual students, as well as, group pictures and may appear in Social Media, local newspapers, the Internet, and other forms of media. Often students are identified by name in such photographs.

Additionally, video footage of school programs provides an audio-visual record of activities happening during the student's school year. Videotaping of teachers and students engaged in learning activities and programs often are shown on our cable television channel 77 BEN TV.
